

# ILLUMINATIONS

Resources for Teaching Math

Over 500 Lessons

AND

Over 100 Activities

[illuminations.nctm.org](http://illuminations.nctm.org)

FREE resources  
for students  
preK-12!

- Illuminations provides Standards-based resources that improve the teaching and learning of mathematics for all students.
- The website (<http://illuminations.nctm.org>) provides materials that illuminate the vision for school mathematics set forth in the *Principles and Standards for School Mathematics* and *Curriculum Focal Points*.
- Teachers are encouraged to use any of Illuminations' free lessons, applets and interactives in their classroom.
- Have you had success using an Illuminations resource with your students? Please share your success story with us at [illuminations@nctm.org](mailto:illuminations@nctm.org). Your experience could be featured in *Bright Ideas*, the Illuminations' e-newsletter, or on the Illuminations website.

## calculation Nation

- Calculation Nation™ (<http://calculationnation.nctm.org>) uses the power of the Web to let students challenge opponents from anywhere in the world. At the same time, students are able to challenge themselves by investigating significant mathematical content and practicing fundamental skills.
- Calculation Nation™ utilizes math strategy games that encourage your students to learn factors, fractions, multiples, symmetry and more!
- These games expose students to mathematical problems like the ones they see in the classroom every day, with the added element of competition.
- Host a Calculation Nation™ Game Night with your students and see how much fun they have! Resources are available through Illuminations and Calculation Nation™.

If you'd like to share information about Illuminations with friends and colleagues, you can access a PDF of this document at <http://illuminations.nctm.org/flier.pdf>.

Feel free to print, copy and distribute it, or download and share it electronically!
