

How Far Can Your Airplane Travel? NAME _____

After each student in your class has created a paper airplane, record your answers to the following questions.

1. Which airplanes are similar to yours?
2. What attributes do they have in common?
3. Which airplanes do you think will travel the same distance as your airplane? Why?

Fly your paper airplane three times. Use the same amount of force each time.

4. Record all three distances below. Remember to include a label of measurement.

Flight # 1 _____

Flight # 2 _____

Flight # 3 _____

5. What is the median distance traveled by your airplane?
