

# Animal Parade

NAME \_\_\_\_\_

## Directions:

- Using the shapes on the next page, cut out each of the rectangles containing animals.
- Place the pictures in order to form a pattern or sequence using a “rule” you choose.
- Cut out the strip of numbers. Tape them together so they form one long strip with the numbers 1 to 5.
- Tape or glue the animals to the strip. Put your first animal on number 1, your second animal on number 2, and so on. Repeat for all of your animals.
- Cut out the blank rectangle and draw your own animal. Attach it to the strip, too.
- Below, describe your pattern and explain your reason for choosing the fifth animal.

My pattern is:

---

---

I chose the fifth animal because:

---

---

Hyena

Lizard

Dog

Fish

1

5

2

4

3

Tape or glue this part  
to the back of box 3.
