

Fibonacci in Nature

The number of petals on a flower is often a Fibonacci number.

1

3

5

13

Why are four-leaf clovers so rare? Because 4 isn't a Fibonacci number!

Look at your hands. You have...

- 2 hands, each of which has...
- 5 fingers, each of which has...
- 2 or 3 parts, separated by...
- 1 or 2 knuckles.

Cut open a red pepper, lemon, or apple. How many chambers, sections, or seeds are there?
