

Answer Key – Correcting KenKens Activity Sheet

4+ 1	3	3+ 2
5+ 3	2 2	1
①	4+ 1	3

The mistake is in the bottom square of the 5+ cage. This mistake violates the mathematical correctness rule and the rule that numbers cannot be repeated in a row or column.

5+ ④	4+ 3	1 1
①	1	5+ 2
3+ 1	2	3

The mistakes are in the 5+ cage. The top square in the 5+ cage violates the rule that only numbers 1-3 can be used in a 3x3 puzzle. The bottom square in the 5+ cage violates the rule that numbers cannot be repeated in a row or column.
