

Bean Salad Recipes

NAME _____

Build each bean salad with three types of beans: red beans, black-eyed peas, and lima beans. Determine the missing type of bean needed for your salad. Solve to find the number of beans, and which bean is needed to finish the salad. Record your answer on the lines provided. When you are finished, write your own Bean Salad recipe on the back of this sheet. Swap with a partner and solve each other's bean salad recipes.

1. This salad contains:
