

My Day

NAME _____

1. Practice elapsed time by creating your own daily schedule. For each activity, use a pencil and paper clip to spin the spinner and record the elapsed time, or duration, for the activity. Add that duration to the start time to find the finish time for each activity. The finish time for the previous activity will become the start time for your next activity. The first activity has been done for you.

ACTIVITY	START TIME	DURATION	FINISH TIME
Breakfast	7:00 a.m.	20 minutes	7:20 a.m.
Ride Bus	7:20 a.m.		
School			
Ride Bus			
Homework			
Soccer Practice			
Dinner			
Play with Friends			
Go to Bed			

2. You need to wake up tomorrow morning at 7:00 a.m.. Using the time you go to bed as your start time, how much time will you be sleeping tonight?
